 [List of commonly mispronounced Python packages](#) self.Python  
1 submitted 3 years ago by [michael\\_david](#) | dunderinit

What are some commonly mispronounced python packages or closely related libraries other than the below:

- pypi = "pie-pee-eye" or "pip-ee"
- uwsgi = "you-wiz-gee"
- gunicorn = "jee-unicorn"
- nginx = "engine-ex"
- numpy = "num-pie" (debatable)

WHAT KIND OF MUSIC DO YOU LISTEN TO?

| OH, A MIX OF THINGS. SOME CLASSIC ROCK LIKE  
BOSTON, BUT THEN OF COURSE QUEEN AND BOWIE, JOAN JETT...  
DEFINITELY, WE NEED MORE OF THOSE SOUNDS.

| BUT THERE'S SOME GREAT NEWER STUFF TOO, LIKE  
FRANZ FERDINAND, THE DONNAS, AND AUDIOSLAVE.

SOMETIMES THEY'RE A LITTLE MUCH FOR ME.  
I GO MORE FOR THINGS LIKE THE ARCADE FIRE, SOMETIMES  
MIXING SOME ELECTRONIC SOUNDS LIKE POSTAL SERVICE.

| OH YEAH--HAVE YOU EVER CHECKED OUT FREEZEPOP?  
MMH! SYNTH POP CAN BE FUN, BUT AT THE SAME  
TIME, I AGREE THAT SOMETIMES YOU JUST NEED  
TO BLAST SOME METALLICA.

I SOUND PRETTY KNOWLEDGABLE ABOUT MUSIC  
UNTIL PEOPLE FIGURE OUT THAT I'M JUST  
NAMING BANDS FROM GUITAR HERO.
